#### Of the eclipses.

There will happen in this yeare 1610. 4. Eclipses, 2.  
of the Sunne and 2. of the moone, of which onely the  
2. of the moone will be seene in our Horizon.

The first eclipse of the moone will be the 26 day of Time  
after 2. of the clocke in the morning, and wil continue from  
the beginning to the end, 3. houres and a halfe, she shall be  
darkned well neare her whole body.

There will also appeare an other Eclipse of the moone  
vpon the 20 day of December, about 2. a clocke in the  
morning, and will continue 2. houres and a halfe: she shall  
loose halfe her light in her greatest darkenes: as touching  
the effects of both these Eclipses, and also of the vncer-  
taine disposition of the weather, with other such like pre-  
dictions, I leaue you to the iudgements of other, who vie  
yearely to set them downe.

Generall rules profitable to be observed.

**G**Rasse or plant trees the moone being in Taurus, Virgo and Capricornus, (the fit season considered) in the increase of the moone, the winde not blowing from the East nor North.

To haue seedes for store of your owne provision against the next yeare, if you sow them two or thre daies before the moone change, they will be very good

Gather hearbes and fruites in the olde of the moone.

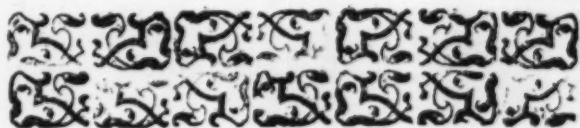

Sowe coine in the increase of the moone, especially in Aries, Leo, or Sagitarus.

Plash hedges from the change to the full, from the end of January to the beginning of June.

Sheare Sheepe, cut hairens, set and remoue trees in the increase of the moone.

Cut, libb, or geld Cattell, in Aries, Libra, and Sagitarus, the moone being past the full. It mattereth not when you let them blood, so that the moone be not in Leo, nor in the day of the change, nor the signe in the place where the incision is made.

Pece must well understand, that the first day ensu-  
ing, each of the Feasts set down before every Terme,  
the Court of the Arches is kept in the fore-noone at  
Bowe Church: and in the after-noone the same first  
day, is kept in Southwarke the Admirall Court for  
Civill causes.

The second day after each of these Feasts, the Au-  
dience Court of Canterbury, is holden in the Con-  
sistorie in Paules in the forenoone, & the Prerogative  
court of Canterbury is kept in the same place in the  
after-noone the same day.

The third day following any of those Feasts, the  
Bishop of Londons court of Consistorie is holden in  
Paules in the fore-noone, and in the same place is the  
court of the Kings Highnesse Commissioners vppon  
Appeales, and the court of Delegates holden in the  
After-noone the same third day.

## Lawe dayes.

Understand that the foure first Feastes of this Terme be neuer chaunged, but are certaine, the other are sometimes kept, and sometimes omitted, after the course of the yeare altered. And if it so chaunce that one of those Feasts bee Ashwednesday, that are after saint Blase day, so that the same Lawe-day after Ashwednesday cannot be kept, because the Lawe-day of the other Feast doth light on the same day: the second Lawe-day after Ashwednesday shall be kept, and the other omitted.

And if the Lawe-day after Ashwednesday, bee the next day after saint Blase, then shall all and euery of those dayes be obserued in order, as they may be helde conueniently.

And note, that although Ashwednesday bee the vij. in order, yet it hath no certaine place, but is chaunged as the Feast of Easter causeth it.

Inuention of the Crosse.		

In this Terme the first sitting is alwayes to be kept, the monday beeing the xv. day after Easter, and so after the Feasts here noted, which shall next follow by cause after Easter, and the like space beeing kept betweene other Feasts, the rest of the Lawe-dayes are kept the third day after the Ascension, which is the last of this Terme. And if it happen that the Ascension day doe come, before any of those Feastes aforesaide, then they are omitted for that yeare. And likewise, if any of those dayes come before the 15. day after Easter, those dayes are also omitted.

Remember that the Lawe dayes of this Terme are chaunged by the meanes of Pentecost, and the first sitting is holden alwayes the first day after Trinitie Sunday, and the second Lawe day is holden the first day after Corpus Christij day, except it fall on some day aboue named, which chaunceth sometime, and then the suttter day is kept, and after the second Session account foure dayes or thereabout, and then looke which is the next Feast, and the first Lawe day after the said Feast, shall be the third Session, the other Lawe dayes followe in order, but so manie of them are kept, as for the time of the yeare is thought meete.

Note generally, that enery day is called a Lawe day, that is not Sunday or Holie-day, and that if the Feast day beeing knowne of anie Court-daye in any Terme, and the first or second day following bee Sunday, then the Court day is kept after the said Holiday or Feast day.

First of all, these dayes are not altered, except they light on Sunday, or some Holie-day, and euerie day is called a Lawe-day, vnlesse it bee Sunday or Holie-day.
